

Functional Features - Heart Disease Analysis

Date: 4/7/2026

Project Name: Heart Disease Analysis

S.No	Feature	Description	Module	Status	Contribution
1	User Login	Secure authentication	Authentication	Done	High
2	Patient Registration	Store patient data	Database	Done	High
3	Data Preprocessing	Clean medical dataset	ML	Done	High
4	Prediction	Predict heart disease risk	ML Model	Done	High
5	Dashboard	Visual reports	Tableau	Done	Medium
6	Report Generation	Prediction reports	Reports	Done	Medium
7	Database Storage	Save patient history	MySQL	Done	High
8	Web Application	Flask interface	UI	Done	High

Feature Summary

Metric	Value
Total Features Planned	8
Total Features Implemented	8
Core Features	6
Additional Features	2
Features Tested & Verified	8
